

Please do not take away K Love and other programming of this type. Here is Alaska where we are quite isolated from the rest of the US we depend on far reaching translators to keep us in tune with the rest of the world. My daughter listens to K Love and enjoys it immensely as do her friends and our translators in this state provide us with programming that connects us all over the state as well as locally. This is important when the nearest large city or even the next city can be 150 to 450 miles away. Our radio broadcasting is very important here.

Thank you Kristin M. Wagar 7:11pm Alaska Time November 1 2004
